

A white cab-over-engine truck with a brown trailer is driving towards the viewer. The truck is positioned in the lower half of the frame, angled slightly to the right. The background consists of a dense cluster of modern skyscrapers with glass facades. The sky is clear and blue.

# Manual Guide

## Universal Transporter Apps

# Preliminary

In 2013 my team and I made this transportation application, we adapted from different patterns of transportation needs of consumers to generate profits for operations.

We study various market conditions to develop features and systems so that they can be used universally.

This application as a whole is designed for cloud servers. You can place sources and databases on a hosting or virtual private server that is equipped with a web server.

The first thing to note when your brand launches on search engines is to separate the url link web app administrator with consumers, you can change the name of the administrator application directory and make settings on SEO so that the admin app is hidden from search.

Another optional step for security is that you can build the passenger and driver application links into a hybrid app in the .apk extension for Android and .IPA for iPhone

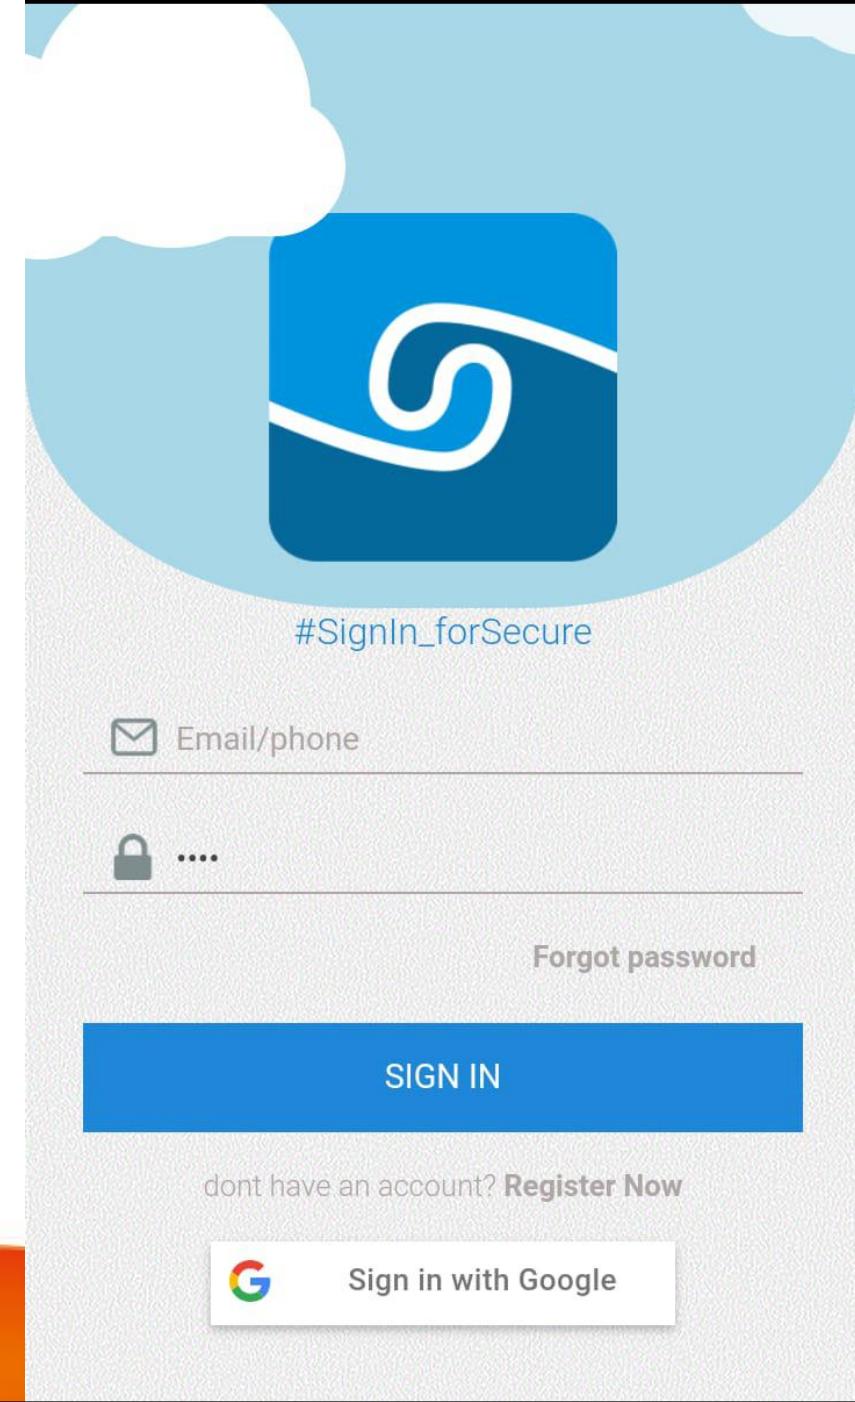

We are sure your brand will be in demand because people like sharing and traveling. When you create a small community or big organization, people who have a vehicle can join to become a driver with an 80% commission, 20% for your organization can be used for operational costs so that the cloud server can still facilitate this system. You can change these commission settings through expert settings, we promise to develop this app system so that you can easily manage. Therefore we need donations from buyers in order to facilitate our developers to work

# Flow topup app Passengers

Choose Topup Balance menu for show your financial account

Input Topup value and click submit

Passengers transfer money to administrator bank account according to the amount entered at the request, then passengers confirm with bank information. Next process is administrator check payment from passengers

### Transfer money to administrator bank account

**Balance**

You can topup balance for payment service

**Your Balance**

**USD 2,605,-**

**You Request Topup**

Please transfer payment to admin bank account  
USD 200,-

**Choose one account admin for your payment :**

Bank Name	Account number	Owner Name
CommonWealth Bank	3637288199	zoe hendicott
ANZ	4422444444	hendry Scott
NAB	33883992999	Hendry Scott

after transfer money, please confirmation data

**Payment Confirm**

### Confirmation payment

**Confirm**

Choose your bank

ANZ

Account number:

Your Bank Account number:

Owner Name :

Your name:

**Confirm**

Open app administrator, login first then choose menu Balance User for check all request balance from user, when new request, administrator see yellow color notification click confirm to show details of payment

The screenshot shows a mobile application interface for an administrator. On the left is a vertical sidebar with icons and labels: Dashboard, Notification, Balance User (highlighted in blue), Balance Driver, My Account, Restaurant, and Users. The main area has a title "Request Topup/Withdraw from Passengers user" and a subtitle "waiting Comfirmed by Administrator". A table lists two requests:

ID Request	Details	Date	Name User	User Phone	Total Invoice	Status	Bank Name	Owner Name	Account number	Navigation
70	topup	14-08-2019	Pakjim	081333524567	USD 50.000	Done	BNI	pakjim	34123123	Done
71	deposit	19-09-2019	Pakjim	081333524567	USD 200	User already Payment Confirm	ANZ	pakjim	6666889009999	<button>Confirm</button>

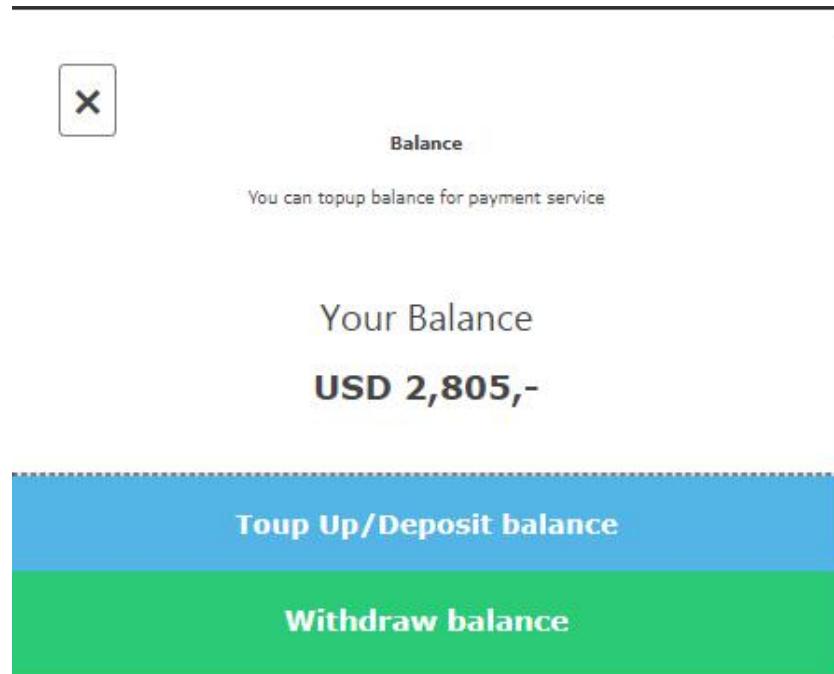

Check on administrator banking account, if payment user already done click confirm

The image shows a mobile application interface for an administrator. On the left is a sidebar with a blue header and a white footer, containing icons and labels for various sections: DASHBOARD, NOTIFICATION, BALANCE USER, BALANCE DRIVER, MY ACCOUNT, RESTAURANT, USERS, DRIVERS, and ADMIN/PARTNERS. The main content area has a light blue background. At the top, it displays "Payment Pakjim" and "Detail Transfers". Below this, a table lists transaction details:

ID Transaction	: 71
Tanggal	: 19-09-2019
Owner Name	: Pakjim
Tagihan Invoice	: USD 200
Name Bank User	: pakjim
Name Bank	: ANZ
Account Number	: 6666889009999

Below the table, a message states: "Already transferred to admin bank account: Name bank: ANZ Account Number: 4422444444 Name: hendry Scott". Further down, another message says: "if payment user Pakjim already transferred to administrator bank, click confirm." A large green rectangular button labeled "CONFIRM" is centered below these messages. At the bottom left, a "Back" button is visible, and at the bottom right, the text "delete if nothing payment from user" is displayed in red.

- Balance passengers added after administrator confirm payment
- before topup, user balance is USD 2.605
- Now User balance added USD 200 become USD 2.805
- Now user passengers can payment service with this balance
- if passengers user need withdraw money to bank account, choose menu withdraw

# Flow withdraw balance app passengers

Input value, bank information and accou number and click submit

The first step of the withdrawal process. It features a blue header with a back arrow and the title 'Withdraw Balance'. Below the header is a cartoon illustration of two characters: one holding a small red piggy bank and another carrying a large red piggy bank on their back. The main area contains three numbered steps: '1. input value withdraw balance' (blue), '2. input your Bank account data' (black), and '3. Money transferred in your bank account' (red). A note at the bottom says 'You must following this step'. A dropdown menu shows '2000' as the selected value. At the bottom, there is a dropdown for 'Bank' showing 'ANZ' and a 'SUBMIT' button.

Withdraw Balance

1. input value withdraw balance

2. input your Bank account data

3. Money transferred in your bank account

You must following this step

2000

ANZ

next step click submit

SUBMIT

Waiting aproval from administrator

The second step, titled 'Waiting aproval from administrator'. It shows a 'Balance' section with a note 'You can topup balance for payment service'. Below it is a 'Your Balance' section showing 'USD 2,805,-'. A dashed box highlights a message: 'Request withdraw on going process by administrator...' followed by 'withdraw value: USD 2.000,-'. At the bottom, there are two buttons: 'Toup Up/Deposit balance' (blue) and 'Withdraw balance' (green).

Balance

You can topup balance for payment service

Your Balance

USD 2,805,-

Request withdraw on going process by administrator...

withdraw value: USD 2.000,-

Toup Up/Deposit balance

Withdraw balance

Open app administrator, login first then choose menu Balance User for check all request balance from user, when new request, administrator see yellow color notification click confirm to show details of payment

The screenshot shows the administrator's dashboard with a sidebar and a main content area.

**Left Sidebar:**

- DASHBOARD
- NOTIFICATION
- BALANCE USER
- BALANCE DRIVER
- MY ACCOUNT
- RESTAURANT
- USERS
- DRIVERS

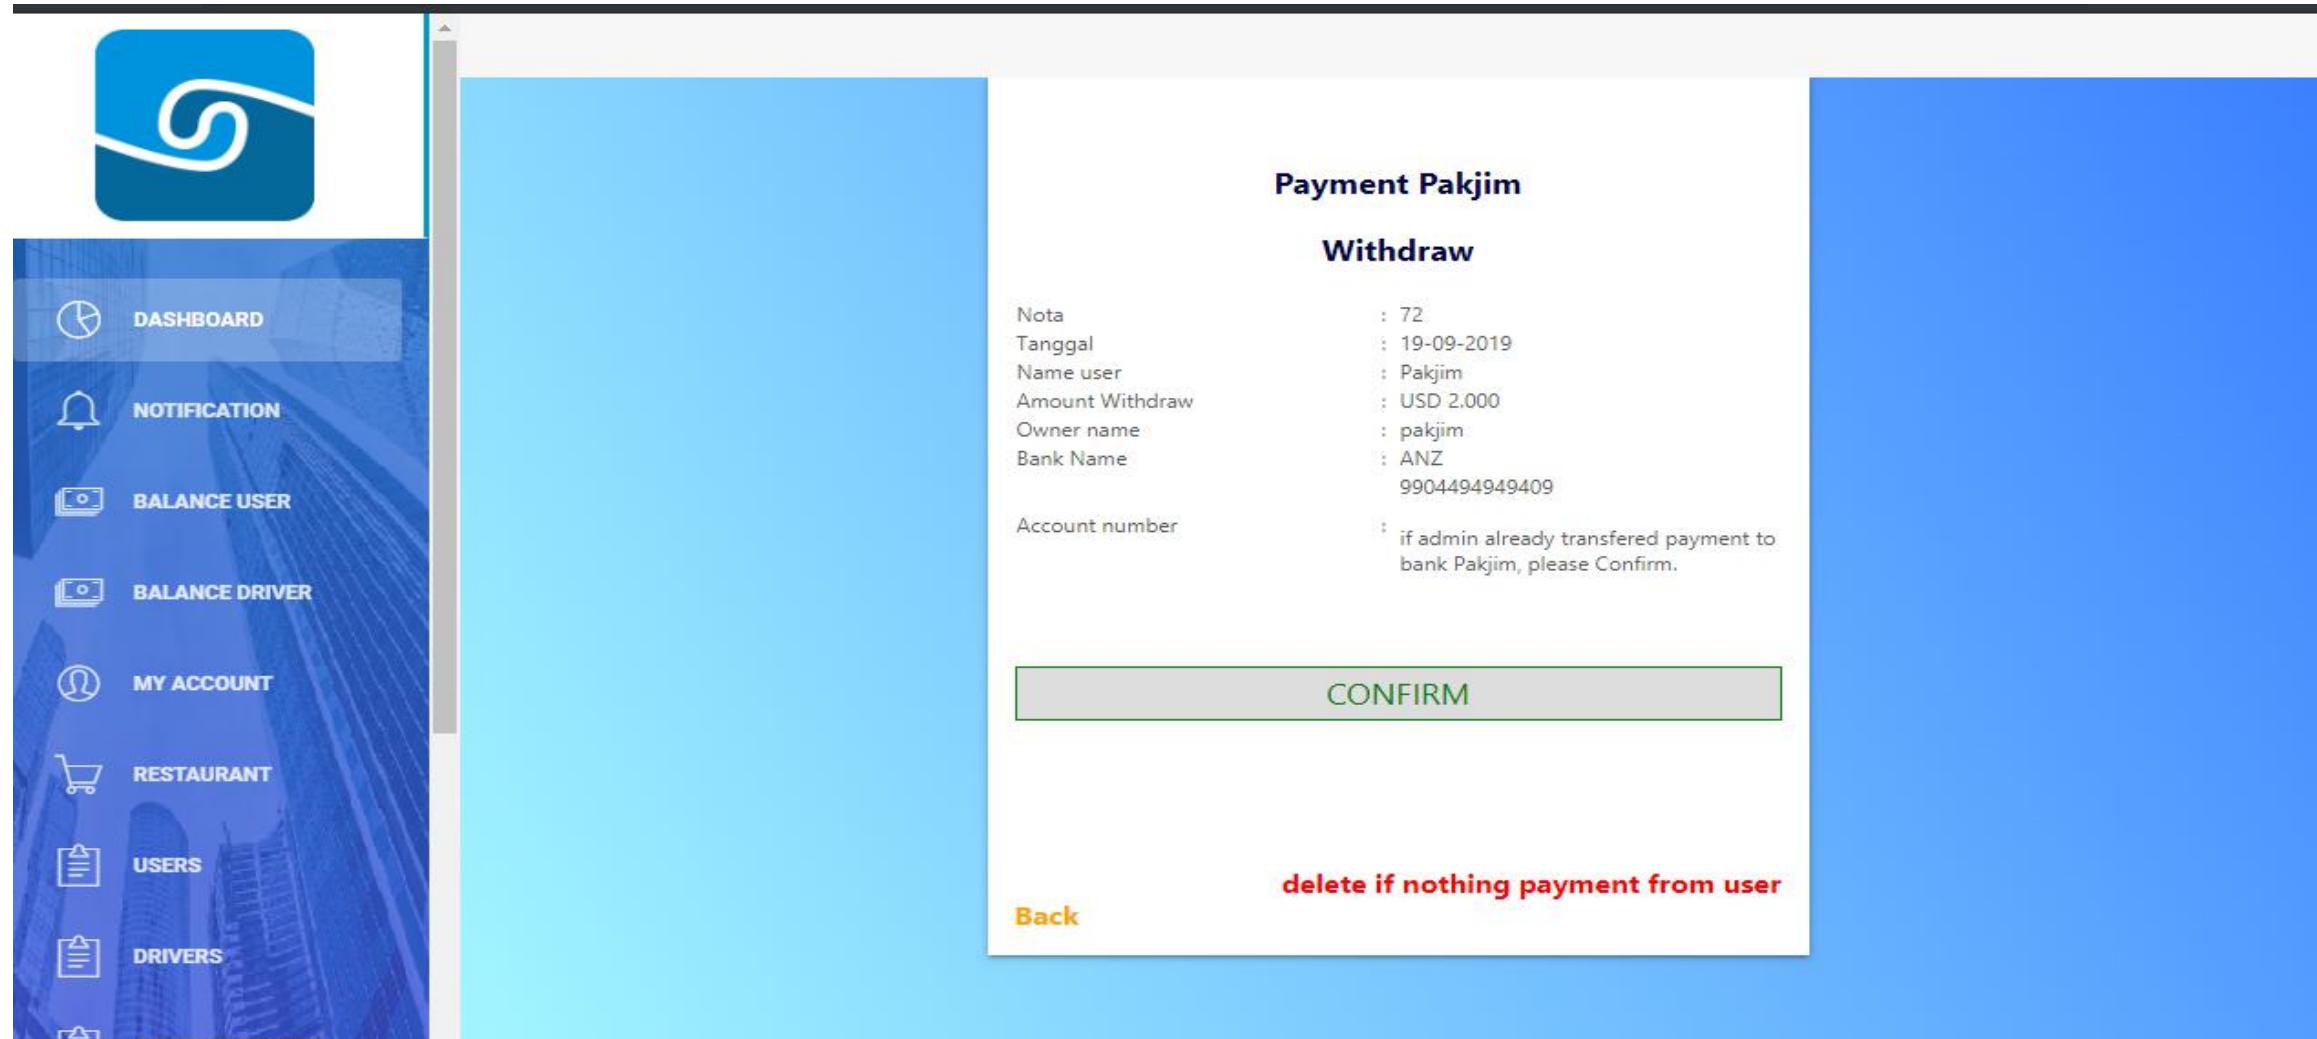

**Main Content Area:**

**Section Title:** Request Topup/Withdraw from Passengers user

**Sub-Section Title:** waiting Confirmed by Administrator

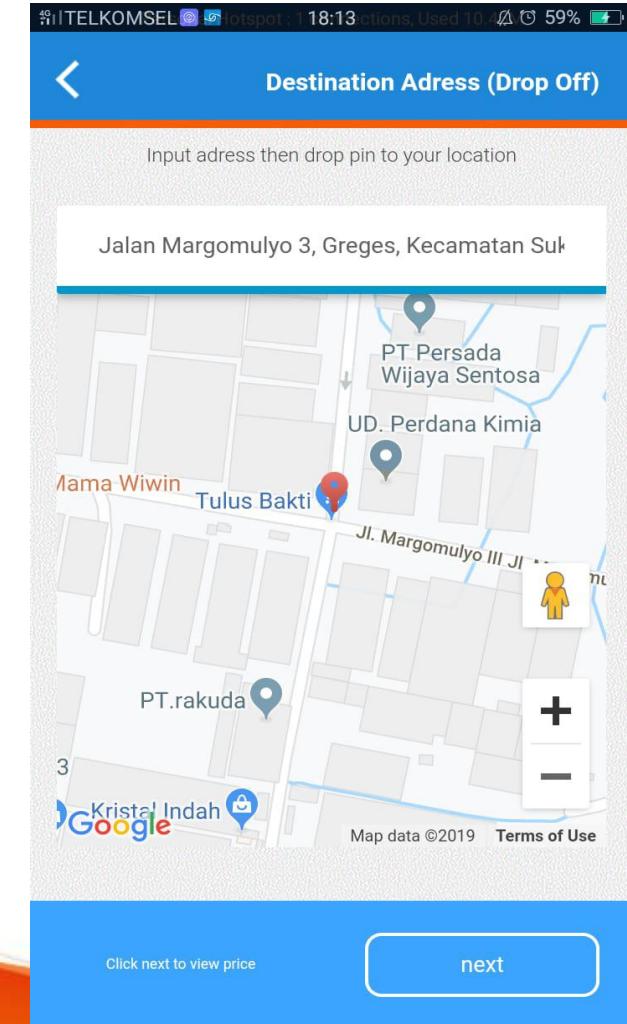

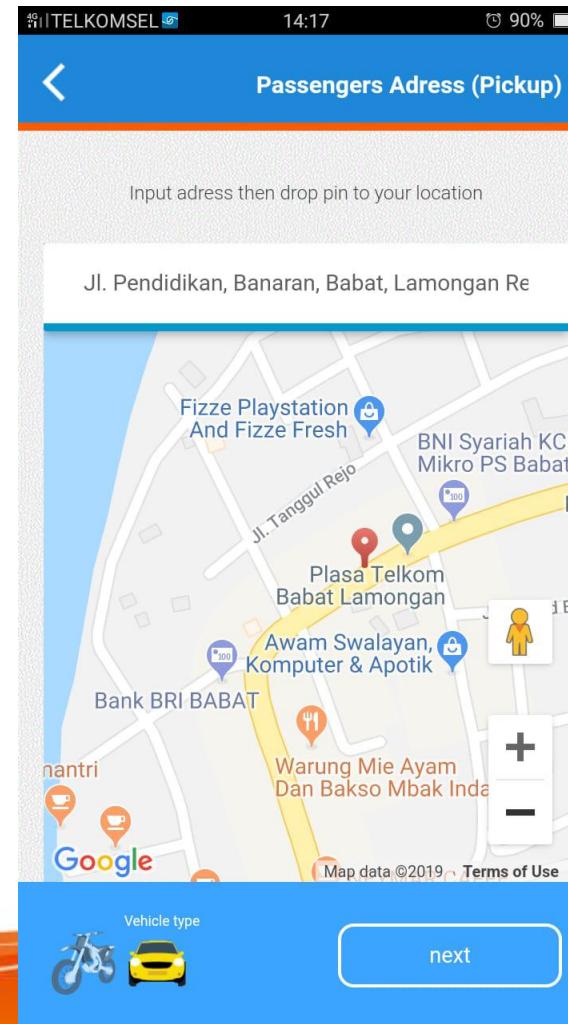

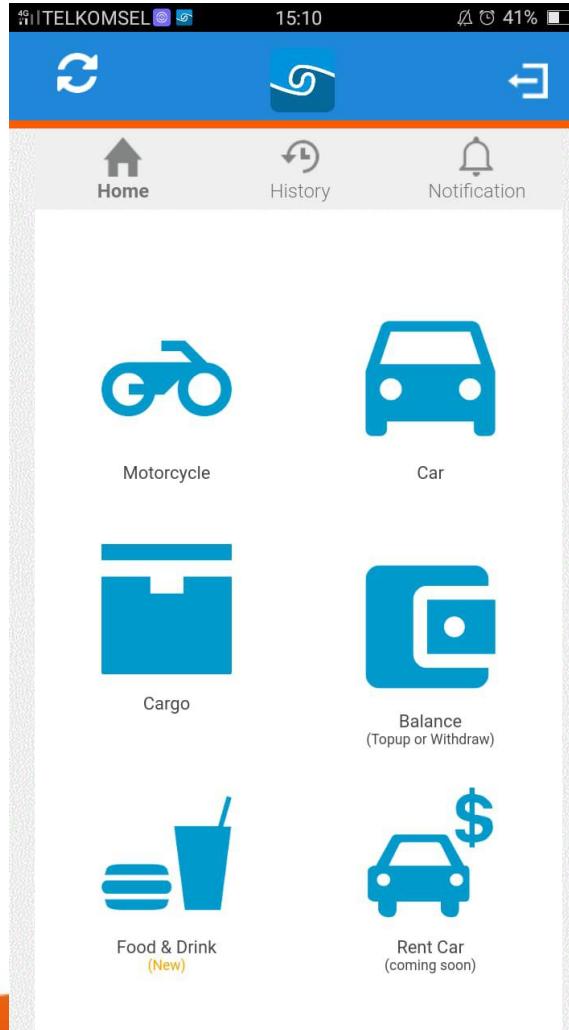

ID Request	Details	Date	Name User	User Phone	Total Invoice	Status	Bank Name	Owner Name	Account number	Navigation
70	topup	14-08-2019	Pakjim	081333524567	USD 50.000	Done	BNI	pakjim	34123123	Done

Administrator must transfer money to user bank account with request data, then click confirm if was done

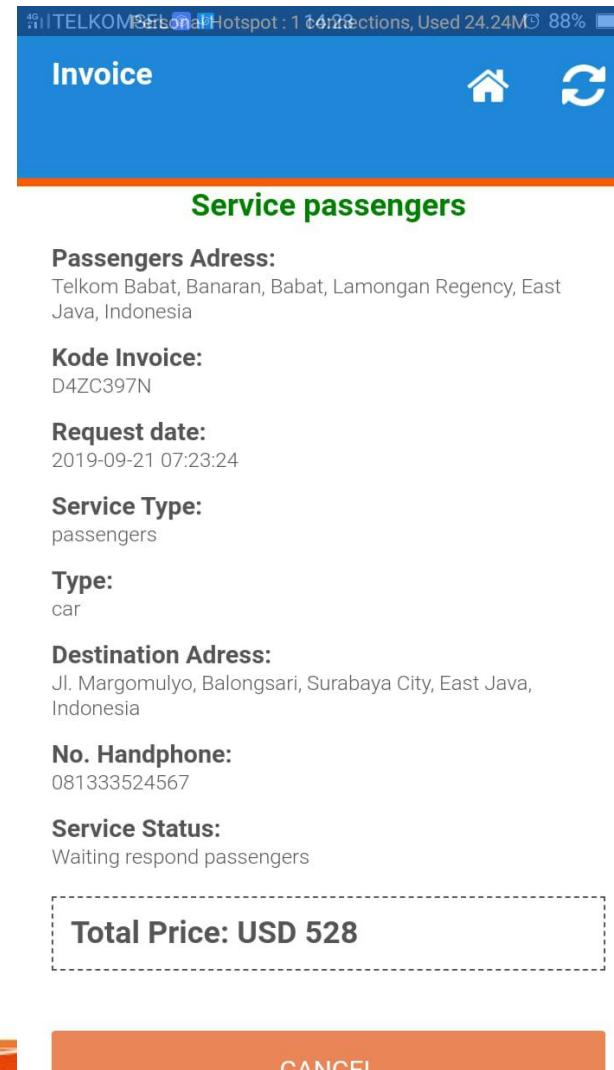

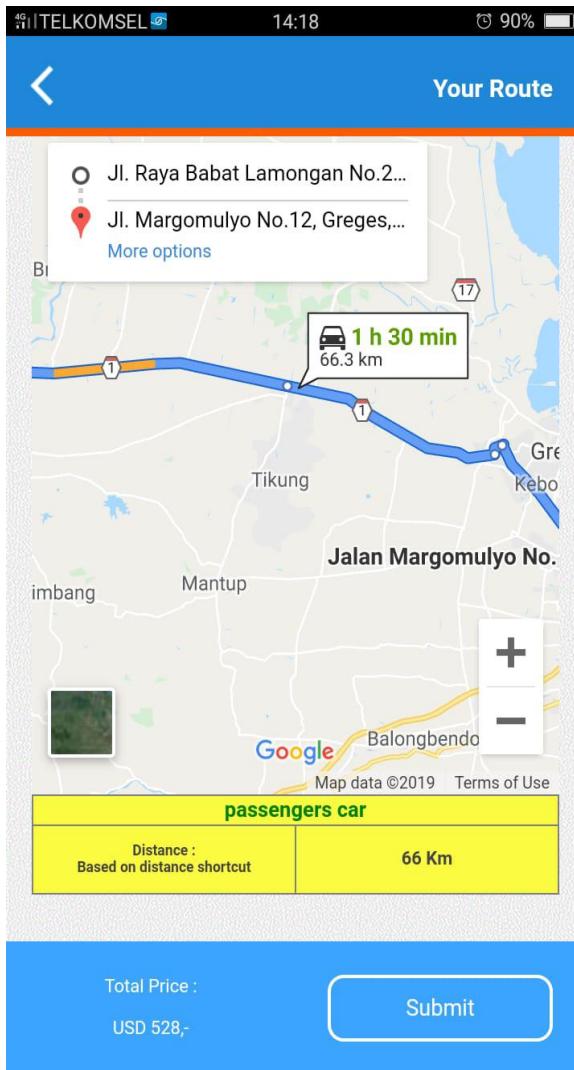

# Flow Order Service Car Transportation

Select menu Car for request car driver, input passenger address and select one, drag market to correct position, Click next  
Then input destination address and drag marker maps to correct position. Click next to check price

**Distance pickup address to destination address is 66Km**  
**Setting price Car transportation in app administrator is \$ 8 USD per km rate**

$$66 \times 8 = 528 \text{ USD}$$

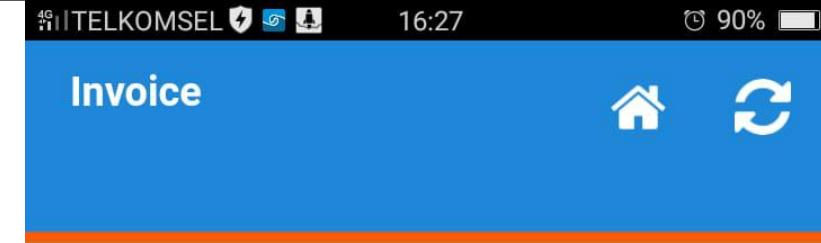

**Waiting Respond from driver  
driver can accept request if type vehicle registered as Car Driver**

**if driver registered as MotorCycle Driver, just accept motorcycle request**

# Flow Payment process

- After Car Driver Accept request passenger app will show invoice with payment navigation
- if balance user more bigger than total invoice, pay with balance option will be displayed
- but if balance user is lower than total invoice, show navigation to pay with transfer or cash

invoice passengers

Driver

Kuncoro Hatalulun

Experience : 10 Tahun

Gender : man

Phone : 08912312313

Driver type : driver car

PAY WITH BALANCE  
USD 528,-  
(YOUR BALANCE USD 805)

CANCEL

This image shows a mobile application interface for managing drivers. It displays a driver's profile with basic information like name, experience, gender, phone number, and driver type. A prominent blue button at the bottom allows the user to pay with their available balance. The balance shown is USD 528, which is less than the total invoice amount of USD 805, indicating a payment shortfall.

On going service

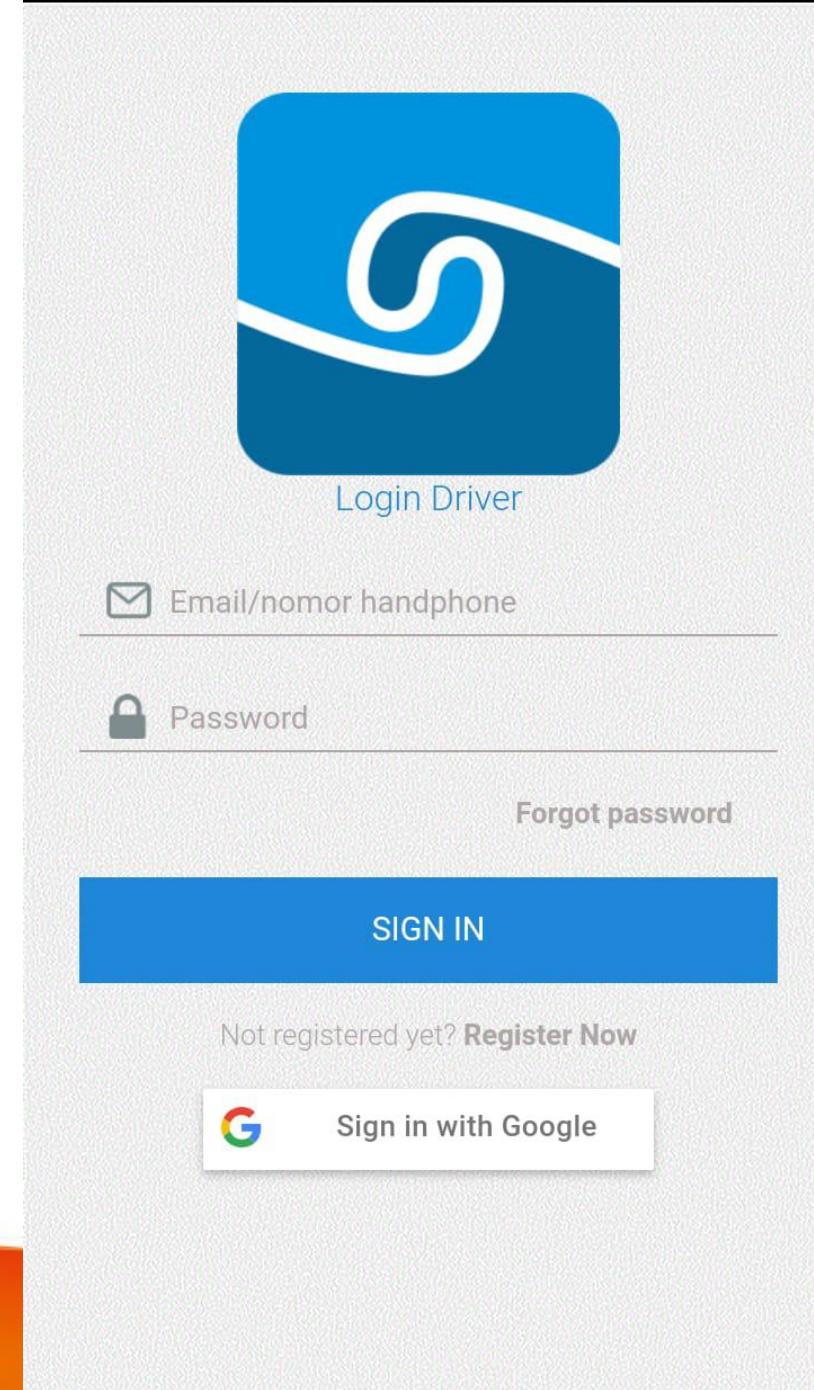

- After passenger finished payment, Service status is Active
- Passengers waiting car driver come to pickup address

- Driver can easy choose far destination with high price or near from driver location

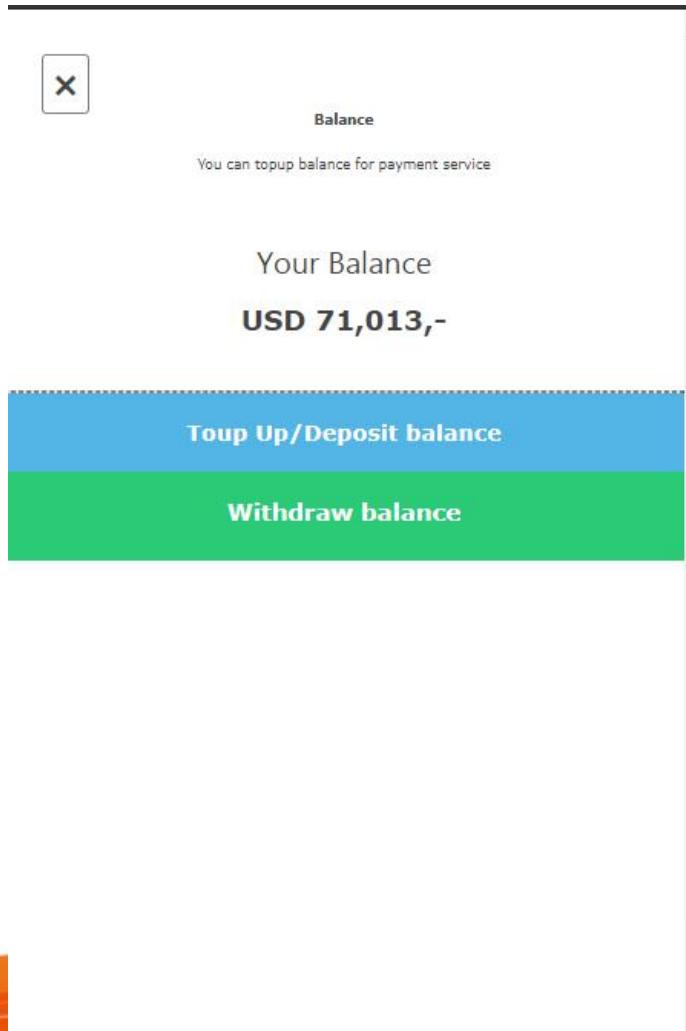

# Flow Driver Service

when payment from passengers is done, driver on the way to pickup location, then click start service to drop off passengers in destination. When service done, Driver click Finish button

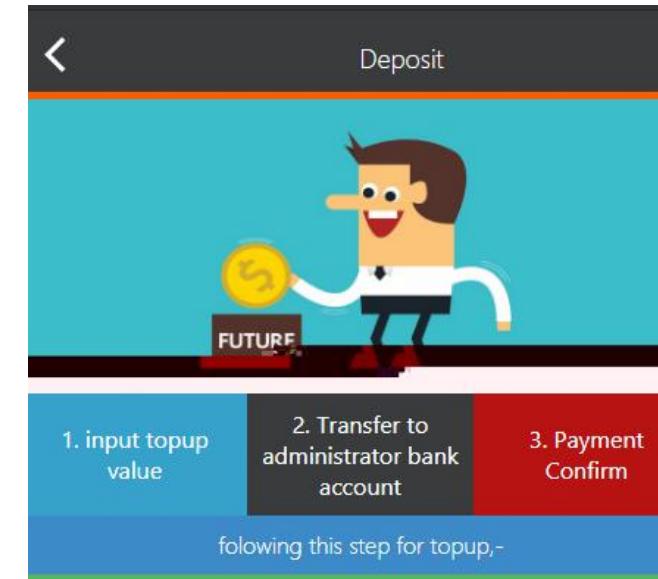

# Flow topup app Driver

Choose Topup Balance menu for show your financial account

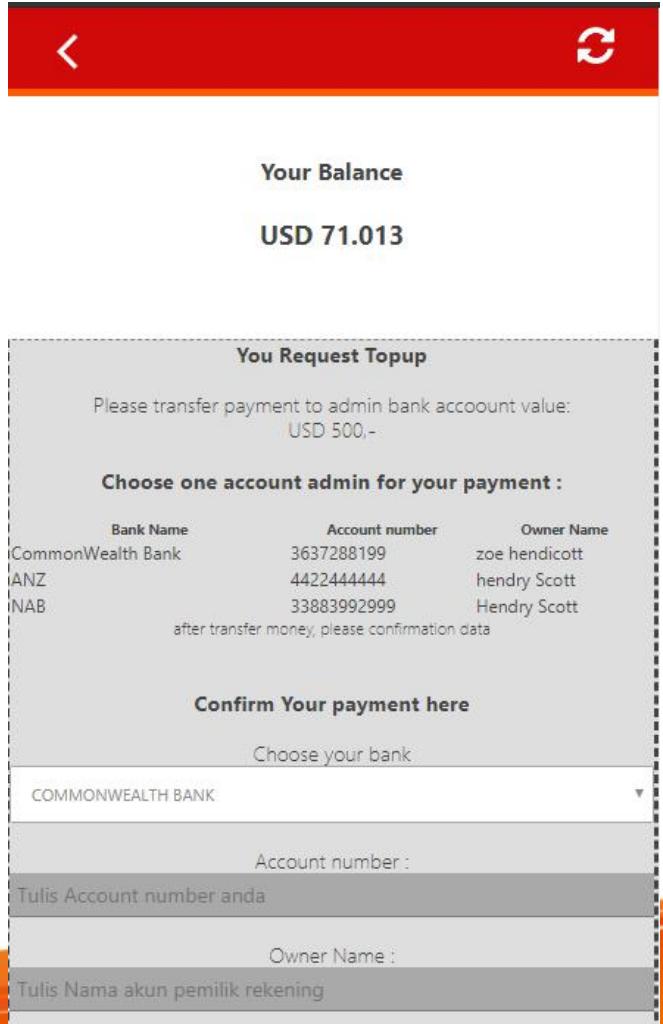

Input Topup value and click submit

Driver transfer money to administrator bank account according to the amount entered at the request, then passengers confirm with bank information. Next process is administrator check payment from passengers

### Transfer money to administrator bank account

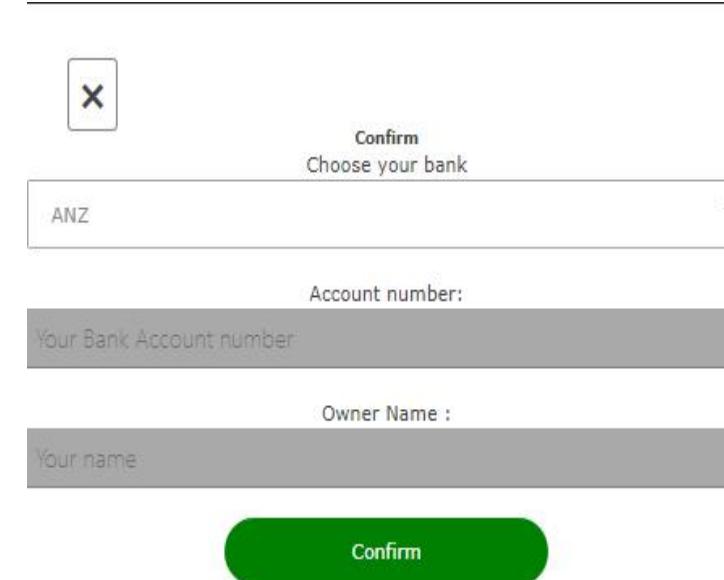

The screenshot shows a mobile application interface for transferring money. At the top, there are navigation icons: a left arrow and a circular refresh icon. Below this, the text "Your Balance" is displayed, followed by "USD 71.013". A large dashed box encloses the "You Request Topup" section. Inside this box, the text "Please transfer payment to admin bank account value: USD 500,-" is shown. Below this, the heading "Choose one account admin for your payment :" is displayed, followed by a table of bank accounts:

Bank Name	Account number	Owner Name
CommonWealth Bank	3637288199	zoe hendicott
ANZ	4422444444	hendry Scott
NAB	33883992999	Hendry Scott

Below the table, the text "after transfer money, please confirmation data" is visible. At the bottom of the box, the heading "Confirm Your payment here" is displayed, followed by fields for "Choose your bank" (set to COMMONWEALTH BANK), "Account number:", "Tulis Account number anda", "Owner Name:", and "Tulis Nama akun pemilik rekening".

### Confirmation payment

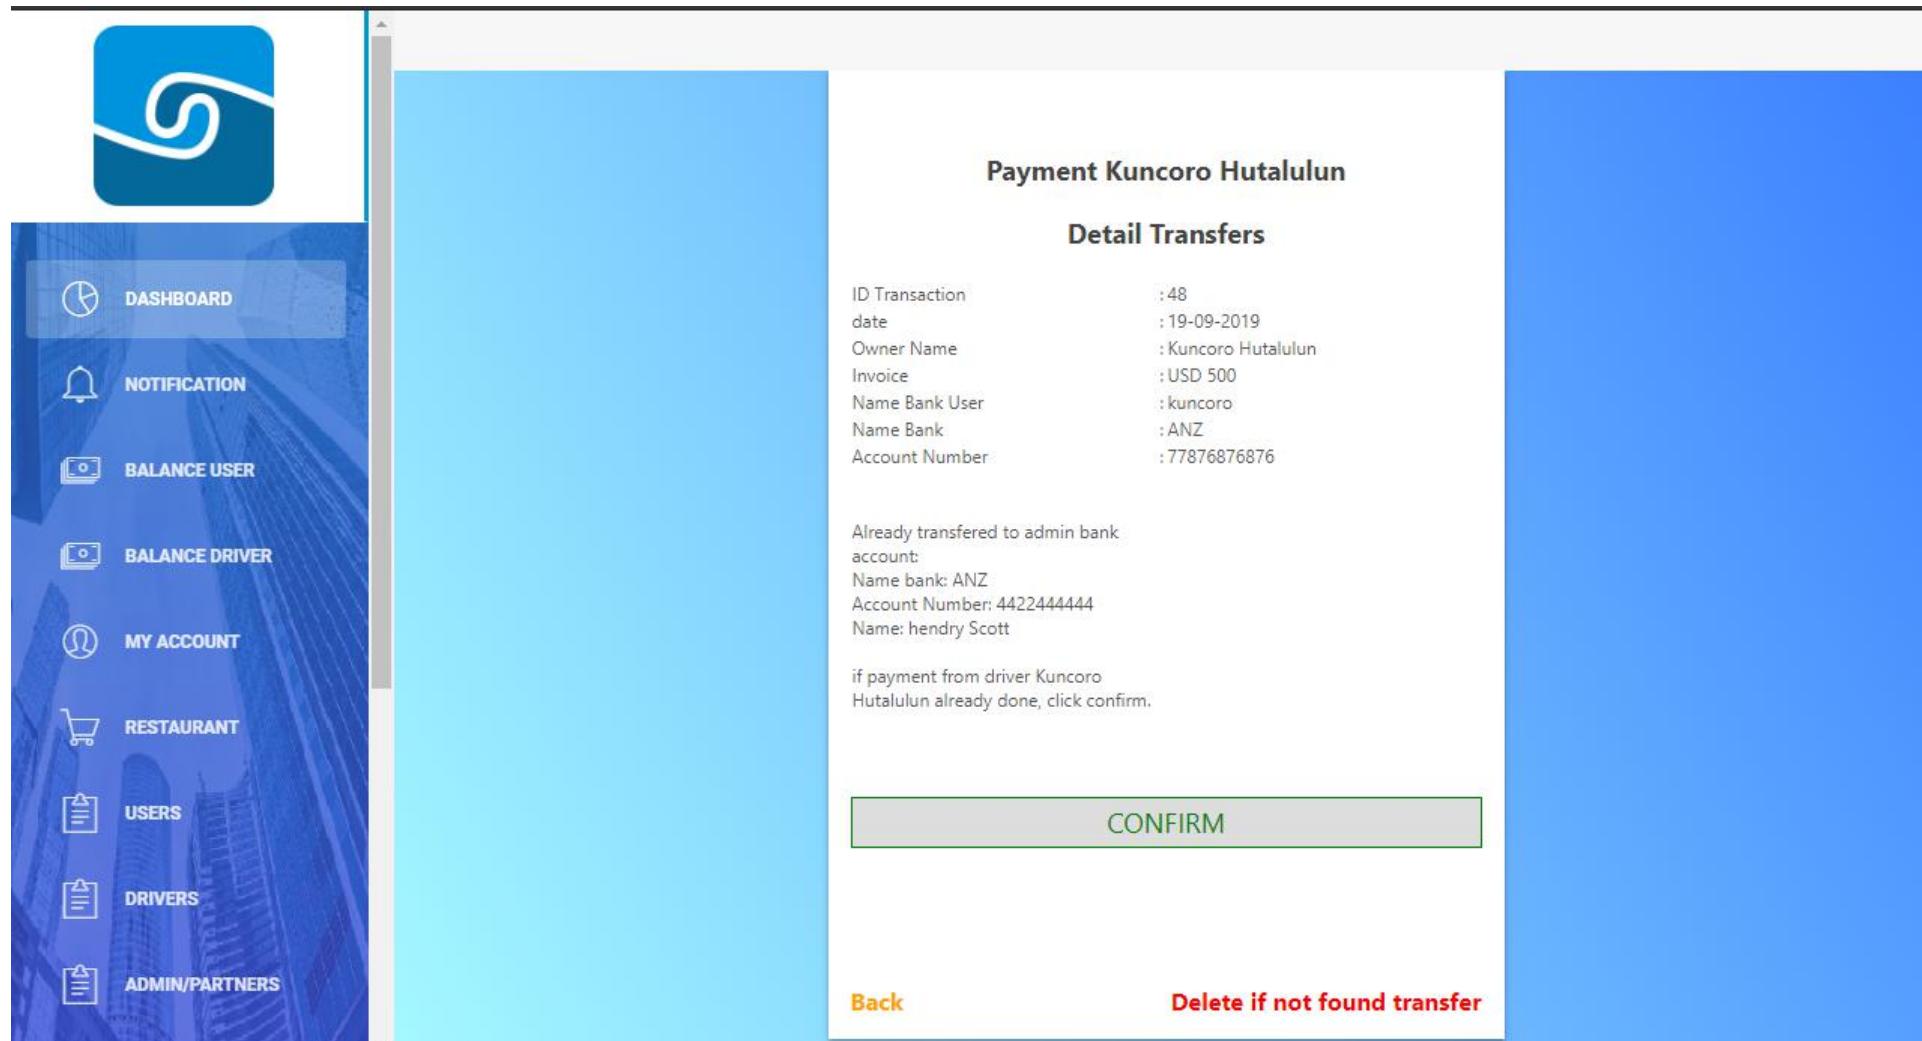

The screenshot shows a confirmation screen. At the top, there is a close button (X) and the word "Confirm". Below this, the text "Choose your bank" is displayed, with "ANZ" selected. The next section contains fields for "Account number:" (labeled "Your Bank Account number:"), "Owner Name :" (labeled "Your name:"), and a large green "Confirm" button.

Open app administrator, login first then choose menu Balance Driver for check all request balance from Driver, when new request, administrator see yellow color notification click confirm to show details of payment

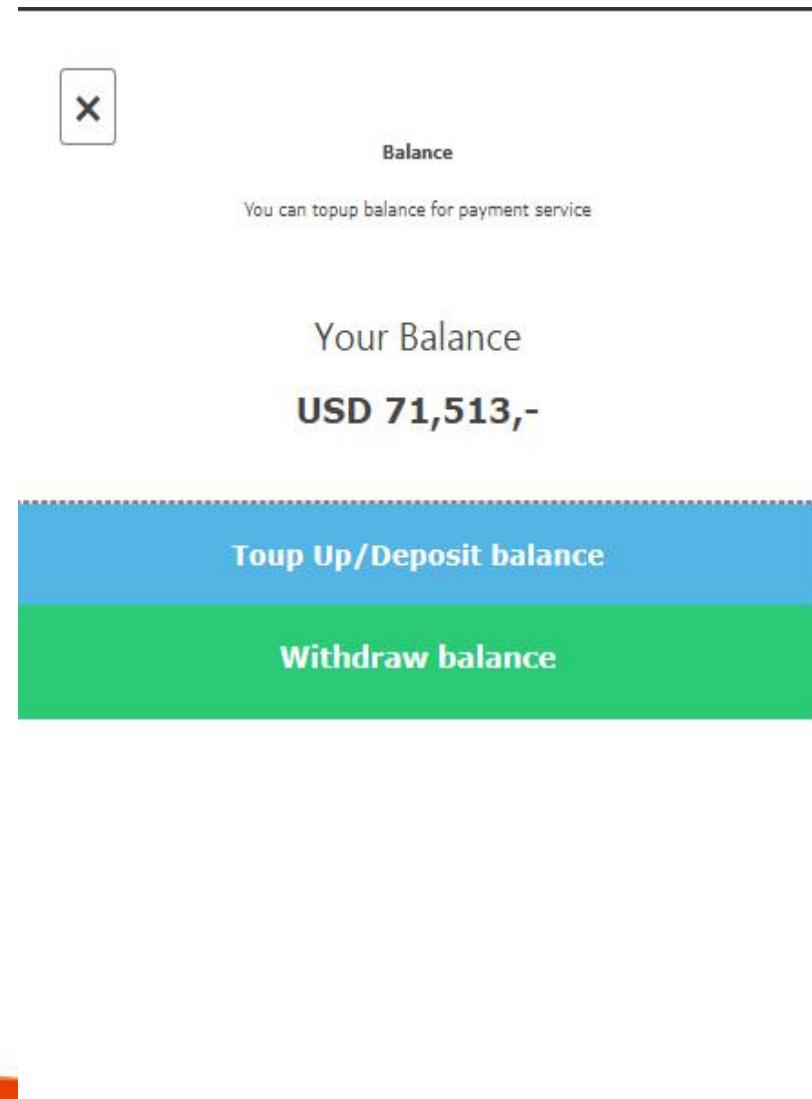

The screenshot shows the 'BALANCE DRIVER' section of the app administrator interface. On the left, there's a sidebar with various menu items: DASHBOARD, NOTIFICATION, BALANCE USER, BALANCE DRIVER (which is highlighted), MY ACCOUNT, RESTAURANT, USERS, and DRIVERS. The main area is titled 'Request Topup/Withdraw Driver' and has a subtitle 'waiting for Administrator Confirm'. A table lists five requests:

ID Request	Details	date	Name User	User Phone	Invoice	Status	Bank Name	Owner Name	Account number	Navigation
40	topup	26-03-2019	Kuncoro Hatalulun	08912312313	USD 35.000	Done	BNI	IRFAN BAEIR M Si	90012949466	Done
43	topup	08-04-2019	Kuncoro Hatalulun	08912312313	USD 30.000	Done	BNI	IRFAN BAEIR M Si	90012949496	Done
44	topup	09-04-2019	Kuncoro Hatalulun	08912312313	USD 40.000	Done	BRI	kuncodias akun	100299299	Done
46	topup	11-04-2019	Kuncoro Hatalulun	08912312313	USD 100.000	Done	BNI	IRFAN BAEIR M Si	9012949466	Done
48	topup	19-09-2019	Kuncoro Hatalulun	08912312313	USD 500	User already Confirm Payment	ANZ	kuncoro	77876876876	<button>Confirm</button>

Check on administrator banking account, if payment user already done click confirm

- Driver balance already added into account
- When driver want withdraw click button withdraw
- After driver finish service drop off passengers in destination, driver get balance, so driver can withdraw balance into bank account

# Introducing App Administrator

App administrator with intelligent dashboard UI, show request from passengers all in maps, admin can see income profit, total balance in driver account or passengers account  
to Access App for Administrator from url <https://yourdomain.com/owner/index.php>

The screenshot shows the 'Dashboard' page of the app. On the left, a sidebar menu lists: DASHBOARD, NOTIFICATION, BALANCE USER, BALANCE DRIVER, MY ACCOUNT, RESTAURANT, USERS, DRIVERS, and ADMIN/PARTNERS. The main area features a map titled 'Overview' with several location markers. A tooltip on the map displays a passenger request: 'Sigit Armawan W Request Transportasi penumpang Driver: from: Perumahan minasa upa to: Jalan maccini baru Total price: USD 3000 phone: Sigit Armawan W : 08114164735'. To the right of the map is a summary section titled 'Activity' containing the following data:

Total Users :	4 User
Total Drivers :	5 Orang
Total Admin partners :	7 Orang
Request balance Users :	0 Request
Request balance Driver :	1 Request
Total Money on user account :	USD 2.605,-
Total Money on Drivers Account :	USD 81.200,-
Profit Barisandata (Equity):	USD 0

At the bottom of the dashboard are three buttons: Refresh Data, Logout, and Stop All Police Button.

Default Login for admin is

Email:  
admin@barisandata.com  
Password: 1234

for first\_time you can change login in phpmyadmin

or change in menu My account

(for topup balance user)

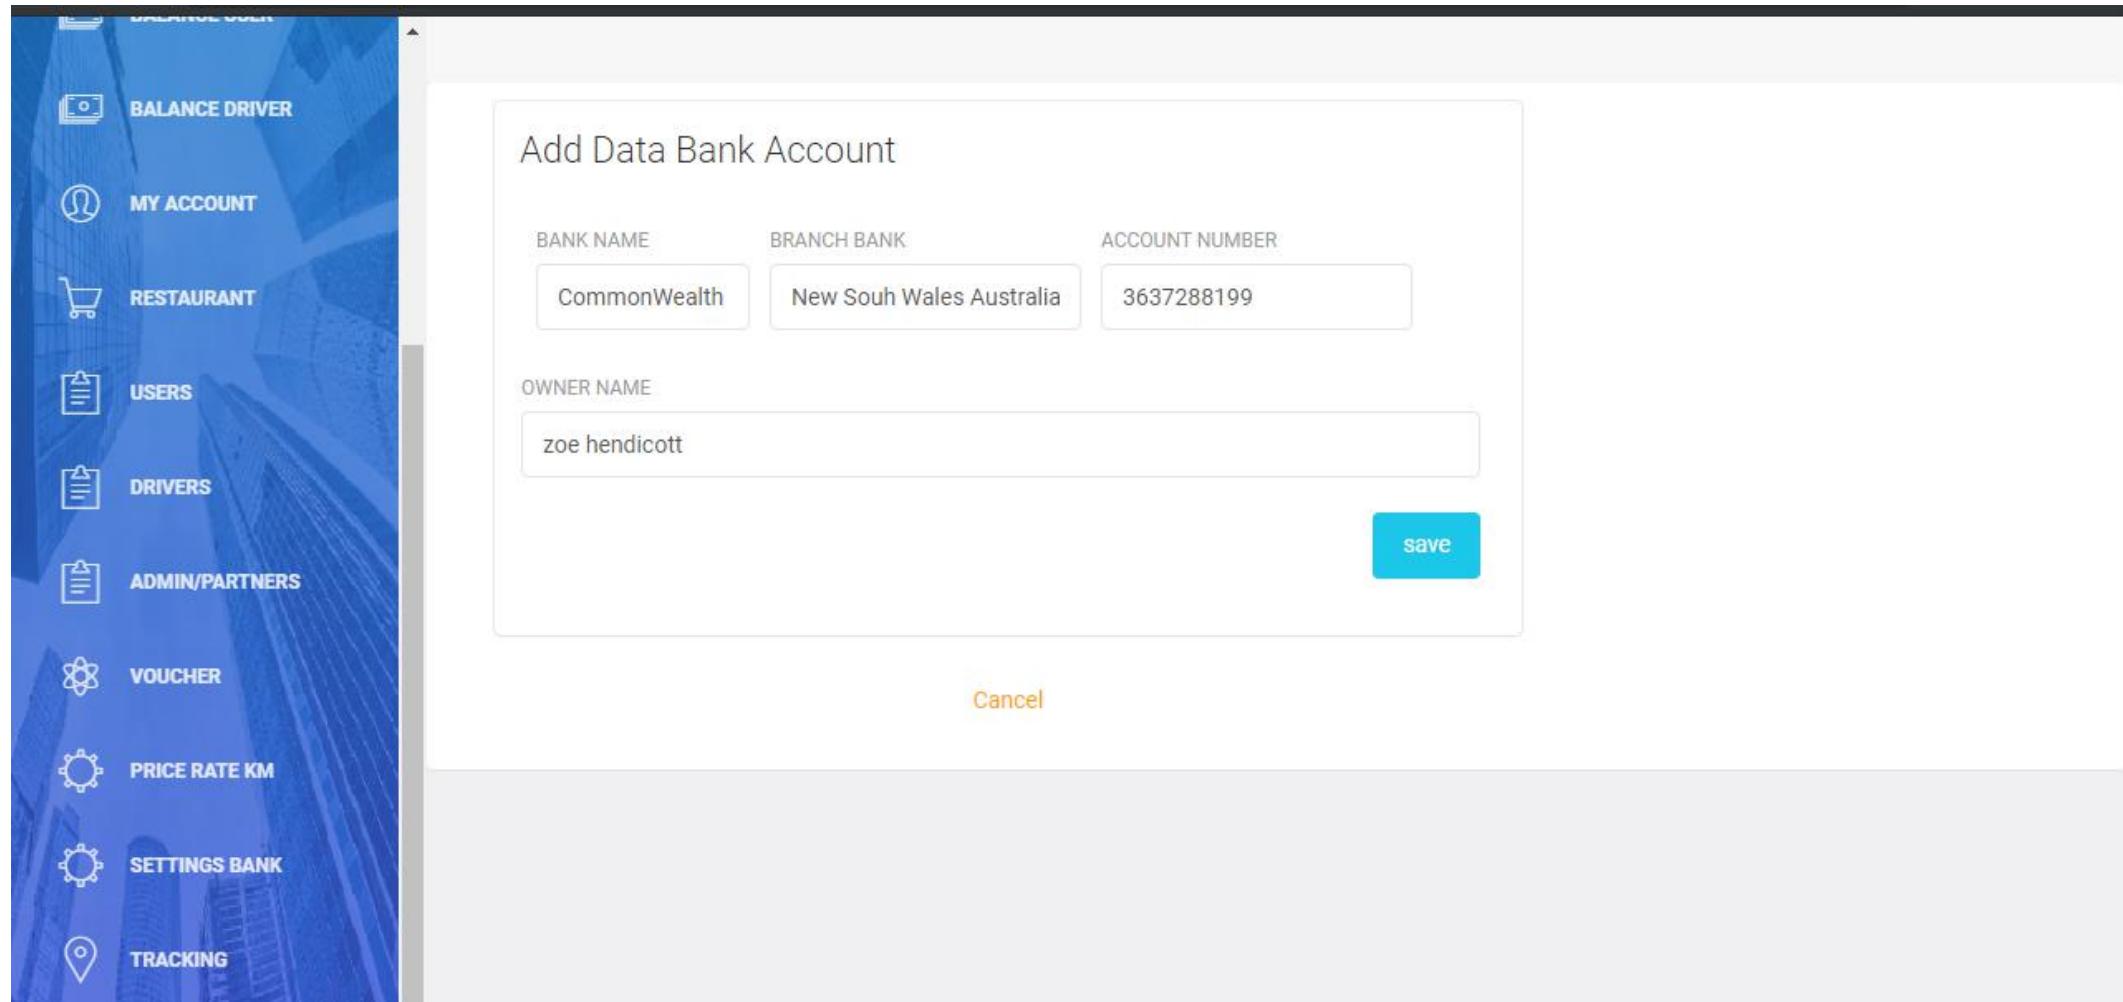

**Buttons:** add bank Account

**Table:** A grid showing three bank accounts.

No.	Bank Name	Account number	Branch Bank	Owner Name	(x)
1	CommonWealth Bank	3637288199	New South Wales Australia	zoe hendicott	Hapus
2	ANZ	4422444444	South Melbourne	hendry Scott	Hapus
3	NAB	33883992999	Sydney	Hendry Scott	Hapus

# Add New Bank Account

add new bank account, like this example input Local bank name, Branch, account number and owner name

# Setting Service city

Add latitude and longitude for marketing target users

For example, the application is only used specifically for residents of the city of Melbourne Melbourne. If there are requests from application users from Tokyo, Japan cannot be served by the driver

The driver application will detect user requests in the area around the location point with a distance of 900km. Admin can add another point for large location

The screenshot shows a sidebar menu on the left with various icons and labels: MY ACCOUNT, RESTAURANT, USERS, DRIVERS, ADMIN/PARTNERS, VOUCHER, PRICE RATE KM, SETTINGS BANK, TRACKING, COMPLAINT, and SERVICE CITY. The SERVICE CITY option is highlighted with a blue background. The main content area is titled "Service City Settings". It contains a brief description of the purpose of setting service cities and a table to manage them.

**Service City Settings**

Add latitude and longitude for marketing target users
